

THANAPORN HONGTHONG

Front-end Developer

Thailand | thanaporn.h17@gmail.com | +6688-482-4500 | [LinkedIn](#)

SUMMARY

Computer Science graduate with 1.5 years of experience in Front-end & Mobile Development using JavaScript, React, and React Native. Specialized in building reusable UI components and converting Figma designs into high-performance, responsive web and mobile applications. Adept at bridging the gap between design and engineering feasibility to deliver seamless digital products.

EDUCATION

Thammasat University, Pathum Thani | 2019 - 2025

Bachelor of Science in Computer Science | Cumulative GPA: 3.15/4.0

WORK EXPERIENCE

NECTEC NSTDA, Pathum Thani

Software Developer (Front-end) & Research Assistant | Jan – Dec 2023

Full-time Contract (1 Year) | **Project: Traffic Fondue Extensions & Enterprise Solutions**

- **Figma-to-Code Implementation & Scaling:** Developed and scaled a bilingual (Thai/English) web interface from Figma designs into fully functional, customized responsive web applications for various governmental organizations, overcoming platform barriers and ensuring international accessibility.
- **LINE Chatbot Frontend Engineering:** Programmed and deployed a specialized Status Tracking LINE Chatbot interface for diverse organizations, transforming complex backend database tracking into an intuitive 5-step user flow that boosted internal operational efficiency by 20%.
- **Design System & Technical Feasibility:** Collaborated on a Figma-based design system by auditing UI components for technical feasibility and cross-browser compatibility, reducing design revision cycles by 25% and ensuring an optimized, friction-free implementation workflow.
- **Cross-functional Handoff & Feature Delivery:** Maintained high design fidelity across production environments by establishing efficient handoff processes between Figma blueprints and front-end development, increasing overall feature delivery speed by 15%.

Mobile Application Developer | June – Dec 2022

Internship (6 Months) | **Project: Traffic Fondue**

- **Mobile Interface Optimization (React Native):** Developed and optimized responsive mobile interfaces using React Native with a strong focus on accessibility and performance, improving case-management efficiency for government agencies by over 30% through simplified, task-driven layouts.
- **Data-Driven UI Refinement:** Analyzed user feedback and front-end pain points gathered from monthly user training sessions to iteratively refactor application flows, resulting in a 20% reduction in user drop-off rate.
- **Iterative UI Refinement:** Collaborated with the field team to translate user feedback into frontend code updates, significantly increasing user satisfaction scores.
- **Reusable Component Development:** Developed a library of reusable UI components using React, JavaScript, and Tailwind CSS, reducing new feature development time by 15%.

AREAS OF EXPERTISE

- **Technical Foundations & Frameworks**
 - **Languages:** HTML, CSS, JavaScript (ES6+)
 - **Frameworks & Libraries:** React, React Native, Tailwind CSS
 - **State Management & Tools:** Version Control (Git/GitHub), Web Performance Optimization
- **Design-to-Code Implementation**
 - **UX/UI Implementation:** Figma (UI Design, Prototyping, Design Systems, Wireframing), User Journey Mapping
 - **Core Concepts:** Responsive Web Development, Component-Driven Development, Cross-Platform Development, User-Centric UI Development
- **Workflow & Collaboration**
 - **Project Management:** Notion (Task Tracking & Documentation), Draw.io (Architecture & Component Flowcharts)
 - **Processes:** Agile/Scrum, Design-to-Dev Handoff Optimization, Slack, Microsoft Teams, Google Meet

ADDITIONAL

- **Soft skills:** Collaboration (Designers & Back-end Developers), Logical Thinking, Problem-Solving, Attention to UI Detail, Adaptability to New Tech Stacks, Technical Communication
- **Languages:** Thai (Native), English (Working Proficiency)
